

Datejust 31

Oyster, 31 mm, Oystersteel, Everose gold and diamonds

**This Oyster Perpetual
Datejust 31 in
Oystersteel and Everose
gold features a slate,
diamond-set dial and a
Jubilee bracelet.**

SLATE DIAL

A watchmaking technique

This dial features a large VI set with 11 diamonds. The sunray finish creates delicate light reflections on many dials in the Oyster Perpetual collection. It is obtained using masterful brushing techniques that create grooves running outwards from the centre of the dial.

Light is diffused consistently along each engraving, creating a characteristic subtle glow that moves depending on the position of the wrist.

Once the sunray finish has been completed, the dial colour is applied using Physical Vapour Deposition or electroplating. A light coat of varnish gives the dial its final look.

DIAMOND-SET BEZEL

A sparkling symphony

Gem-setters, like sculptors, finely carve the precious metal to hand-shape the seat in which each gemstone will be perfectly lodged. With the art and craft of a jeweller, the stone is placed and meticulously aligned with the others, then firmly secured in its gold or platinum setting.

Besides the intrinsic quality of the stones, several other criteria contribute to the beauty of Rolex gem-setting: the precise alignment of the height of the gems, their orientation and position, the regularity, strength and proportions of the setting

as well as the intricate finishing of the metalwork.
A sparkling symphony to enhance the watch and
enchant the wearer.

EVEROSE ROLESOR

A meeting of two metals

Gold is coveted for its lustre and nobility. Steel reinforces strength and reliability. Together, they harmoniously combine the best of their properties.

A true Rolex signature, Rolesor has featured on Rolex models since the early 1930s, and was trademarked as a name in 1933. It is one of the prominent pillars of the Oyster collection.

THE JUBILEE BRACELET

Supple and comfortable

The design, development and production of Rolex bracelets and clasps, as well as the stringent tests they face, involve advanced high technology.

And, as with all the components of the watch, aesthetic controls by the human eye guarantee impeccable beauty. The Jubilee, a supple and comfortable five-piece link metal bracelet, was designed and made especially for the launch of the Oyster Perpetual Datejust in 1945.

More technical details

Datejust

Reference 278341RBR

Model Case

Type

Oyster, 31 mm, Oystersteel, Everose gold and diamonds

Diameter

31 mm

Material

Everose Rolesor

Bezel

Domed, set with diamonds

Oyster Architecture

Monobloc middle case, screw-down case back and winding crown

Winding Crown

Screw-down, Twinlock double waterproofness system

Crystal

Scratch-resistant sapphire, Cyclops lens over the date

Water Resistance

Waterproof to 100 metres / 330 feet

Movement

Type

Perpetual, mechanical, self-winding

Calibre

2236, Manufacture Rolex

Precision

-2/+2 sec/day, after casing

Oscillator

Syloxi hairspring in silicon with patented geometry. High-performance Paraflex shock absorbers

Winding

Bidirectional self-winding via
Perpetual rotor

Power reserve

Approximately 55 hours

Functions

Centre hour, minute and seconds
hands. Instantaneous date with
rapid setting. Stop-seconds for
precise time setting

Bracelet

Type

Jubilee, five-piece links

Clasp

Concealed folding Crownclasp

Bracelet Material

Everose Rolesor - combination of
Oystersteel and Everose gold

Dial

Type

Slate set with diamonds

Certification

Type

Superlative Chronometer (COSC +
Rolex certification after casing)
