

Padellone

39 mm, platinum, polished finish

A close-up, artistic photograph of a luxury watch dial, likely a Patek Philippe Perpetual Calendar. The dial is a light, textured color, possibly platinum or white. It features a large, semi-circular moon phase sub-dial at the 6 o'clock position, which is dark with a starry pattern and a central moon face. Above the moon phase, there is a date window with a rectangular frame, showing the word "MAY" and the number "22". The dial has several large, polished hour markers and hands. The background is a soft, out-of-focus blue-grey. The text "The Perpetual Padellone features a 39 mm case in platinum with an alligator leather strap." is overlaid in white, bold, sans-serif font.

alligator leather strap.**

ICE BLUE DIAL

An exclusive signature

The dial features a grained finish at its centre and fine satin finish around the edge, faceted hour markers and 3 and 9 numerals in 18 kt white gold. A discreet railway minute track surrounds the ice blue dial. In addition to the calendar indications, it is graced with a blue enamelled moonphase disc displaying the full moon and the new moon, both crafted in meteorite and the second of the two treated with a dark blue PVD coating. The face on each moon is pad printed, as are the surrounding silver stars.

The ice blue dial is the discreet and exclusive signature of a Rolex platinum watch. This exclusive dial colour can be found only on the Day-Date, the Cosmograph Daytona, the Land-Dweller, the 1908 and the Padellone.

DOMED AND FLUTED BEZEL

Finely presented

Fitted with a domed and delicately fluted bezel, the Padellone features a 39 mm case with graceful lines.

The upper part of the bezel is domed while the lower part is finely fluted, in a contemporary expression of traditional watchmaking and the brand's aesthetic heritage.

PLATINUM

The noblest of metals

Rare and precious, platinum is striking for its silvery whiteness and vibrant luminosity. It is among the densest and heaviest metals in the world, distinguished by unique chemical and physical properties such as exceptional corrosion resistance.

Paradoxically, it is also soft, elastic and highly malleable, which makes machining and polishing especially difficult, demanding an extremely high degree of skill. Rolex always uses 950 platinum, an alloy consisting of 950‰ (thousandths)

platinum, painstakingly crafted in-house by the fine metalworkers at Rolex. The noblest of metals for the finest of watches.

A LUXURIOUS STRAP

Individually tailored

This Padellone version is fitted on an alligator leather strap. This elegant strap is distinctive for its green calfskin lining and tone-on-tone stitching.

It is equipped with a Dualclasp, a double folding clasp, in platinum. Thanks to its carefully designed shape, the Dualclasp always sits centered on the wrist.

More technical details

Padellone

Reference 53506

Model Case

Type

39 mm, platinum, polished finish

Diameter

39 mm

Material

Platinum

Bezel

Domed and fluted

Case Back

Domed transparent case back with anti-reflective coating

Winding Crown

Domed

Crystal

Scratch-resistant sapphire

Water Resistance

Waterproof to 50 metres / 165 feet

Movement

Type

Perpetual, mechanical, self-winding

Calibre

7190, manufacture Rolex

Precision

-2/+2 sec/day, after casing

Oscillator

Syloxi hairspring in silicon with patented geometry. High-performance Paraflex shock absorbers

Winding

Bidirectional self-winding via Perpetual rotor

Power reserve

Approximately 66 hours

Functions

Centre hour, minute and seconds hands. Instantaneous complete annual calendar with Haplos system. Stop-seconds for exact time setting

Bracelet

Type

Leather strap

Clasp

Double folding Dualclasp

Bracelet Material

Matt black alligator leather

Dial

Type

Ice blue

Details

Blue enamelled moonphase disc

Certification

Type

Superlative Chronometer (official chronometer certification + Rolex certification after casing)
