BRIGHT BLACK AND SUNDUST DIAL

With chronograph counters

This model features a bright black and Sundust, diamond-set dial with 18 ct gold applique hour markers and hands with a Chromalight display, a highly-legible luminescent material.

The dial allows drivers to accurately map out their track times and tactics without fail.

THE TACHYMETRIC SCALE

High-performance chronograph

With its tachymetric scale, its three counters and its pushers, the Cosmograph Daytona was designed to be the ultimate timing tool for endurance racing drivers. The bezel features a tachymetric scale to read average speed over a given distance based on elapsed time.

This scale offers optimal legibility, making the Cosmograph Daytona the ideal instrument for

measuring speeds up to 400 units per hour,
expressed in kilometres or miles.
