

Cosmograph Daytona

Oyster, 40 mm, Everose gold

A close-up, diagonal view of a watch bezel. The bezel is dark with a light-colored tachymetric scale. The words 'OYSTER PERPETUAL' are embossed on the bezel. The numbers '4000' and '2000' are visible on the scale. The background is a solid, muted brown color.

**This Oyster Perpetual
Cosmograph Daytona in
18 ct Everose gold, with
a bright black and
Sundust, diamond-set
dial and an Oysterflex
bracelet, features a
black Cerachrom bezel
with tachymetric scale.**

THE OYSTERFLEX BRACELET

Highly resistant and durable

The 18 ct gold versions of the Cosmograph Daytona with a Cerachrom bezel are available with an Oysterflex bracelet. Developed by Rolex and patented, it singularly combines the robustness of a metal bracelet with the comfort of an elastomer bracelet.

It is made up of two flexible curved metal blades – one in each bracelet section – overmoulded with high-performance black elastomer. For optimum

comfort, the Oysterflex bracelet is equipped with cushions on its inner sides and an Oysterlock safety clasp to prevent accidental opening. Its length may be adjusted via the ingenious Rolex Glidelock extension system.

18 CT EVEROSE GOLD

An exclusive patent

To preserve the beauty of its pink gold watches, Rolex created and patented an exclusive 18 ct pink gold alloy cast in its own foundry: Everose gold.

Introduced in 2005, 18 ct Everose is used on all Rolex Oyster models in pink gold.

BRIGHT BLACK AND SUNDUST DIAL

With chronograph counters

This model features a bright black and Sundust, diamond-set dial with spray-coated counters, 18 ct gold applique hour markers and hands with a Chromalight display, a highly-legible luminescent material.

The dial allows drivers to accurately map out their track times and tactics without fail.

THE TACHYMETRIC SCALE

High-performance chronograph

A key part of the model's identity is the bezel moulded with a tachymetric scale for measuring average speeds of up to 400 miles or kilometres per hour. Blending high technology with sleek aesthetics, the black bezel is reminiscent of the 1965 model that was fitted with a black Plexiglas bezel insert.

The monobloc Cerachrom bezel in high-tech ceramic offers a number of advantages: it is

corrosion resistant, virtually scratchproof and the colour is unaffected by UV rays. This extremely durable bezel also offers an exceptionally legible tachymetric scale, thanks to the deposition of a thin layer of platinum in the numerals and graduations via a PVD (Physical Vapour Deposition) process. The monobloc Cerachrom bezel is made in a single piece and holds the crystal firmly in place on the middle case, ensuring waterproofness.

More Cosmograph Daytona technical details

Reference 126515LN

Model Case

Type

Oyster, 40 mm, Everose gold

Diameter

40 mm

Material

Everose gold

Bezel

Black monobloc Cerachrom bezel in ceramic with moulded tachymetric scale

Oyster Architecture

Monobloc middle case, screw-down case back and winding crown

Winding Crown

Screw-down, Triplock triple waterproofness system

Crystal

Scratch-resistant sapphire

Water Resistance

Waterproof to 100 metres / 330 feet

Movement

Type

Perpetual, mechanical chronograph, self-winding

Calibre

4131, manufacture Rolex

Precision

-2/+2 sec/day, after casing

Oscillator

Paramagnetic blue Parachrom hairspring. High-performance Paraflex shock absorbers

Winding

Bidirectional self-winding via Perpetual rotor

Power reserve

Approximately 72 hours

Functions

Centre hour and minute hands, small seconds hand at 6 o'clock. Chronograph via centre seconds hand, 30-minute counter at 3 o'clock and 12-hour counter at 9 o'clock. Stop seconds for exact time setting

Bracelet

Type

Oysterflex

Bracelet Material

Flexible metal blades overmoulded with high-performance elastomer

Clasp

Folding Oysterlock safety clasp with Rolex Glidelock extension system

Dial

Type

Bright black and Sundust set with diamonds

Details

Highly legible Chromalight display with long-lasting blue luminescence

Gem setting

Diamonds in 18 ct gold settings

Certification

Type

Superlative Chronometer (official chronometer certification + Rolex certification after casing)
