

# Day-Date 36

Oyster, 36 mm, Everose gold and

diamonds

The Oyster Perpetual Day-Date 36 in 18 ct Everose gold, with an eisenkiesel, diamondset dial, diamond-set bezel and a diamond-set

### **President bracelet.**

EISENKIESEL DIAL

## **Delicately veined quartz**

This dial features hour markers in 18 ct gold, set

with 32 diamonds, and a Roman VI and IX in 18 ct gold, set with 24 diamonds. The Oyster Perpetual Day-Date 36 is presented with a dial made from eisenkiesel, a deep brown decorative stone used by the brand for the first time in 2021.

Eisenkiesel is an iron-oxide, delicately veined quartz. The stone discs destined for the dials are cut from a block of raw material. Only those whose colour and structure fully satisfy the brand's exacting aesthetic requirements are selected. They will grace the dial of a Rolex watch, conferring it with a unique personality.

DIAMOND-SET BEZEL

## A sparkling symphony

Gem-setters, like sculptors, finely carve the

precious metal to hand-shape the seat in which each gemstone will be perfectly lodged. With the art and craft of a jeweller, the stone is placed and meticulously aligned with the others, then firmly secured in its gold or platinum setting.

Besides the intrinsic quality of the stones, several other criteria contribute to the beauty of Rolex gem-setting: the precise alignment of the height of the gems, their orientation and position, the regularity, strength and proportions of the setting as well as the intricate finishing of the metalwork. A sparkling symphony to enhance the watch and enchant the wearer.

**18 CT EVEROSE GOLD** 

## An exclusive patent

To preserve the beauty of its pink gold watches,

Rolex created and patented an exclusive 18 ct pink gold alloy cast in its own foundry: Everose gold.

Introduced in 2005, 18 ct Everose is used on all Rolex Oyster models in pink gold.

THE PRESIDENT BRACELET

## The ultimate refinement

The design, development and production of Rolex

bracelets and clasps, as well as the stringent tests they face, involve advanced high technology.

And, as with all the components of the watch, aesthetic controls by the human eye guarantee impeccable beauty. The President bracelet, with its semi-circular three piece links, was created in 1956 for the launch of the Oyster Perpetual Day-Date. It represents the ultimate in refinement and comfort and is always made of carefully selected precious metals.

## **More Day-Date** technical details

Reference 128345RBR

### **Model Case**

#### Туре

Oyster, 36 mm, Everose gold and diamonds

#### **Diameter**

36 mm

#### **Material**

Everose gold

#### Bezel

Set with diamonds

#### **Oyster Architecture**

Monobloc middle case, screw-down case back and winding crown

### Winding Crown Screw-down, Twinlock double

waterproofness system

### **Crystal**

Scratch-resistant sapphire, Cyclops lens over the date

### Water Resistance

Waterproof to 100 metres / 330 feet

### **Movement**

#### Туре

Perpetual, mechanical, self-winding

#### Calibre

3255, Manufacture Rolex

#### **Precision**

-2/+2 sec/day, after casing

#### **Oscillator**

Paramagnetic blue Parachrom hairspring. High-performance Paraflex shock absorbers

#### Winding

Bidirectional self-winding via Perpetual rotor

#### **Power reserve**

Approximately 70 hours

#### **Functions**

Centre hour, minute and seconds hands. Instantaneous day and date in apertures, secure rapid-setting. Stop-seconds for exact time setting

### **Bracelet**

#### Туре

**Diamond-set President** 

#### **Bracelet Material**

18 ct Everose gold
