

# Lady-Datejust

Oyster, 28 mm, Oystersteel

A close-up, high-angle photograph of a Rolex Oyster Perpetual Lady-Datejust watch. The watch is shown from the side, highlighting the fluted bezel and the Jubilee bracelet. The dial is a soft pink color, and several diamond-set hour markers are visible. The watch is set against a light, neutral background.

**This Oyster Perpetual  
Lady-Datejust in  
Oystersteel features a  
pink dial and a Jubilee  
bracelet.**

PINK DIAL

## A watchmaking technique

The sunray finish creates delicate light reflections on many dials in the Oyster Perpetual collection. It is obtained using masterful brushing techniques that create grooves running outwards from the centre of the dial.

Light is diffused consistently along each engraving, creating a characteristic subtle glow that moves depending on the position of the wrist. Once the sunray finish has been completed, the

dial colour is applied using Physical Vapour Deposition or electroplating. A light coat of varnish gives the dial its final look.

## OYSTERSTEEL

# Highly resistant to corrosion

Rolex uses Oystersteel for its steel watch cases. Specially developed by the brand, Oystersteel belongs to the 904L steel family, alloys most commonly used in high-technology and in the aerospace and chemical industries, where maximum resistance to corrosion is essential.

Oystersteel is extremely resistant, offers an exceptional finish once polished and maintains its beauty even in the harshest environments.

## THE JUBILEE BRACELET

# Supple and comfortable

The design, development and production of Rolex bracelets and clasps, as well as the stringent tests they face, involve advanced high technology.

And, as with all the components of the watch, aesthetic controls by the human eye guarantee impeccable beauty. The Jubilee, a supple and comfortable five-piece link metal bracelet, was designed and made especially for the launch of the Oyster Perpetual Datejust in 1945.

## THE CYCLOPS LENS

# A magnifying lens

The Cyclops lens is one of the most distinctive Rolex features, and one of the most recognizable.

Named after the one-eyed giant of Greek mythology, the Cyclops lens magnifies the watch's emblematic date display for easy reading. Behind the Cyclops, as with every feature of a Rolex timepiece, lies a history of invention, research and development, and the endless search for perfection.

## technical details

Reference 279160

### Model Case

---

#### Type

Oyster, 28 mm, Oystersteel

#### Diameter

28 mm

#### Material

Oystersteel

#### Bezel

Domed

#### Oyster Architecture

Monobloc middle case, screw-down case back and winding crown

#### Winding Crown

Screw-down, Twinlock double waterproofness system

#### Crystal

Scratch-resistant sapphire, Cyclops lens over the date

#### Water Resistance

Waterproof to 100 metres / 330 feet

### Movement

---

#### Type

Perpetual, mechanical, self-winding

#### Calibre

2236, Manufacture Rolex

#### Precision

-2/+2 sec/day, after casing

#### Oscillator

Syloxi hairspring in silicon with patented geometry. High-performance Paraflex shock absorbers

### **Winding**

Bidirectional self-winding via Perpetual rotor

### **Power reserve**

Approximately 55 hours

### **Functions**

Centre hour, minute and seconds hands. Instantaneous date with rapid setting. Stop-seconds for precise time setting

## **Bracelet**

---

### **Type**

Jubilee, five-piece links

### **Clasp**

Concealed folding Crownclasp

### **Bracelet Material**

Oystersteel

## **Dial**

---

### **Type**

Pink

## **Certification**

---

### **Type**

Superlative Chronometer (official chronometer certification + Rolex certification after casing)
