

Sky-Dweller

Oyster, 42 mm, Everose gold

**The Oyster Perpetual
Sky-Dweller in 18 ct
Everose gold with a
slate dial and an
Oysterflex bracelet.**

THE OYSTERFLEX BRACELET

Highly resistant and durable

The Sky-Dweller's new Oysterflex bracelet, developed by Rolex and patented, offers a sporty alternative to metal bracelets. The bracelet attaches to the watch case and the Oysterclasp by a flexible titanium and nickel alloy metal blade.

The blade is overmoulded with high-performance black elastomer which is particularly resistant to environmental effects, very durable and perfectly inert for the wearer of the watch. For enhanced

comfort, the inside of the Oysterflex bracelet is equipped with a patented longitudinal cushion system that stabilizes the watch on the wrist and fitted with an 18 ct Everose gold Oysterclasp. It also features the Rolex Glidelock extension system, designed by the brand and patented. This inventive toothed mechanism, integrated beneath the clasp, allows fine adjustment of the bracelet length by some 15 mm in increments of approximately 2.5 mm, without the use of tools.

18 CT EVEROSE GOLD

An exclusive patent

To preserve the beauty of its pink gold watches, Rolex created and patented an exclusive 18 ct pink gold alloy cast in its own foundry: Everose gold.

Introduced in 2005, 18 ct Everose is used on all Rolex Oyster models in pink gold.

SLATE DIAL

A striking characteristic

A fixed inverted red triangle on the dial points to the chosen reference time – the time at home or at the traveller's usual workplace – on the off-centre 24-hour disc. At a glance, this 24-hour display clearly distinguishes daytime hours from night-time hours in the other time zone.

A deep red rectangle in one of the 12 windows around the dial indicates the current month, a striking characteristic of the Saros annual calendar. This ingenious mechanism simplifies life for the wearer of the watch, who no longer needs

to think about adjusting the date at the end of a 30-day month. The annual calendar displays the correct date through the year. Only one adjustment is needed – on 1 March (February having only 28 or 29 days). The date is connected to local time and automatically changes according to the traveller's local time zone.

THE FLUTED BEZEL

A Rolex signature

The Rolex fluted bezel is a mark of distinction. Originally, the fluting of the Oyster bezel had a functional purpose: it served to screw the bezel onto the case, helping to ensure the waterproofness of the watch.

It was therefore identical to the fluting on the case back, which was also screwed onto the case for waterproofness, using specific Rolex tools. Over time, the fluting became an aesthetic element, a genuine Rolex signature feature. Today the fluted bezel is a mark of distinction, always in gold. The

Sky-Dweller is equipped with a mechanism of interaction between the rotatable bezel, the winding crown and the movement: the Ring Command system, which allows the user to select the watch's functions one-by-one and to set them easily, quickly and securely.

technical details

Reference 336235

Model Case

Type

Oyster, 42 mm, Everose gold

Diameter

42 mm

Material

Everose gold

Bezel

Fluted, bidirectional rotatable Rolex Ring Command

Oyster Architecture

Monobloc middle case, screw-down case back and winding crown

Winding Crown

Screw-down, Twinlock double waterproofness system

Crystal

Scratch-resistant sapphire, Cyclops lens over the date

Water Resistance

Waterproof to 100 metres / 330 feet

Movement

Type

Perpetual, mechanical, self-winding, dual time zones, annual calendar

Calibre

9002, manufacture Rolex

Precision

-2/+2 sec/day, after casing

Oscillator

Paramagnetic blue Parachrom hairspring. High-performance Paraflex shock absorbers

Winding

Bidirectional self-winding via
Perpetual rotor

Power reserve

Approximately 72 hours

Functions

Centre hour, minute and seconds
hands. 24-hour display on off-
centre disc. Second time zone.
Instantaneous annual calendar at 3
o'clock and rapid-setting of the
date. Month display via 12
apertures around the circumference
of the dial. Stop-seconds for
precise time setting

Bracelet

Type

Oysterflex

Clasp

Folding Oysterclasp with Rolex
Glidelock extension system

Bracelet Material

Flexible metal blades overmoulded
with high-performance elastomer

Dial

Type

Slate

Details

Highly legible Chromalight display
with long-lasting blue luminescence

Certification

Type

Superlative Chronometer (COSC +
Rolex certification after casing)
