

# Yacht-Master 37

Oyster, 37 mm, Oystersteel and Everose gold

A close-up, angled view of a watch bracelet. The bracelet is made of metal links, some of which are circular and feature a fine horizontal texture. A large, raised 'OY' logo is visible on the upper part of the bracelet. Below the logo is a rectangular date window with a dark background and a light-colored border. The overall color palette is a range of brown and tan tones, with a soft, diffused lighting effect.

#### BIDIRECTIONAL ROTATABLE BEZEL

## Timing the distance

The Yacht-Master's bidirectional rotatable 60-minute graduated bezel is made entirely from precious metal – Everose gold or platinum – or fitted with a Cerachrom insert in high-tech ceramic, depending on the model. The raised polished numerals and graduations stand out clearly against a matt, sand-blasted background.

This functional bezel – which allows the wearer to calculate, for example, the sailing time between two buoys – is also a key component in the model's distinctive visual identity.

## Exceptional legibility

Like all Rolex Professional watches, the Yacht-Master 37 offers exceptional legibility in all circumstances, and especially in the dark, thanks to its Chromalight display.

The broad hands and hour markers in simple shapes – triangles, circles, rectangles – are filled with a luminescent material emitting a long-lasting glow.

EVEROSE ROLESOR

## A meeting of two metals

Gold is coveted for its lustre and nobility. Steel reinforces strength and reliability. Together, they harmoniously combine the best of their properties.

A true Rolex signature, Rolesor has featured on Rolex models since the early 1930s, and was trademarked as a name in 1933. It is one of the prominent pillars of the Oyster Perpetual collection.

THE OYSTER BRACELET

## Alchemy of form and function

The Oyster bracelet is a perfect alchemy of form and function, aesthetics and technology, designed to be both robust and comfortable. It is equipped with an Oysterlock folding clasp, which prevents accidental opening and the Easylink comfort extension link, also exclusive to Rolex.

This ingenious system allows the wearer to increase the bracelet length by approximately 5

mm, providing additional comfort in any circumstance.
