

# Cosmograph Daytona

Oyster, 40 mm, white gold and  
diamonds

**This Oyster Perpetual  
Cosmograph Daytona in  
18 kt white gold, with a  
steel, diamond-set dial  
and contrasting counter  
rings, features an  
Oysterflex bracelet as  
well as a diamond-set  
bezel and diamond-set  
lugs.**

THE OYSTERFLEX BRACELET

## Highly resistant and durable

The 18 kt gold versions of the Cosmograph Daytona with a Cerachrom bezel are available with an Oysterflex bracelet. Developed by Rolex and patented, it singularly combines the robustness of a metal bracelet with the comfort of an elastomer bracelet.

It is made up of two flexible curved metal blades – one in each bracelet section – overmoulded with high-performance black elastomer. For optimum

comfort, the Oysterflex bracelet is equipped with cushions on its inner sides and an Oysterlock safety clasp to prevent accidental opening. Its length may be adjusted via the ingenious Rolex Glidelock extension system.

18 KT WHITE GOLD

## Commitment to **excellence**

By operating its own exclusive foundry, Rolex has the unrivalled ability to cast the highest quality 18 kt gold alloys. According to the proportion of silver, copper, platinum or palladium added, different types of 18 kt gold are obtained: yellow, pink or white.

They are made with only the purest metals and meticulously inspected in an in-house laboratory with state-of-the-art equipment, before the gold is

formed and shaped with the same painstaking attention to quality. Rolex's commitment to excellence begins at the source.

STEEL DIAL

## With chronograph counters

This model features a steel, diamond-set dial with snailed counters, 18 kt gold applique hour markers and hands with a Chromalight display, a highly-legible luminescent material.

The dial allows drivers to accurately map out their track times and tactics without fail.

DIAMOND-SET BEZEL

## Adorning a legendary chronograph

The timepiece incorporates a bezel adorned with 36 trapeze-cut diamonds.

This now legendary chronograph is the instrument of choice for measuring time intervals and determining average speeds. On this gem-set version, the emblematic tachymetric scale is replaced with diamonds.
