

## **GMT-Master II**

Oyster, 40 mm, Oystersteel

The Oyster Perpetual GMT-Master II in Oystersteel with a black dial and an Oyster bracelet.

24-HOUR ROTATABLE BEZEL

### Innovative hightechnology

This model features a black dial and a two-colour Cerachrom bezel insert in grey and black ceramic. In addition to conventional hour, minute and seconds hands, the GMT-Master II features an arrow-tipped hand, which circles the dial once every 24 hours, as well as a bidirectional rotatable 24-hour graduated bezel.

The distinctively coloured 24-hour hand displays the "home" reference time in a first time zone

which can be read on the graduations on the bezel. The traveller's local time is easily set by "jumping" from hour to hour, thanks to an ingenious mechanism operated via the winding crown: the hour hand can be adjusted forwards or backwards independently of the minute and seconds hands. This allows travellers to adapt to their new time zone without affecting the precision of their timekeeping.

**BLACK DIAL** 

## High legibility in all circumstances

The black lacquer dial bears the inscription 'GMT-Master II' in green. This colour also features on the 24-hour hand.

Like all Rolex Professional watches, the GMT-Master II offers exceptional legibility in all circumstances, and especially in the dark, thanks to its Chromalight display. The broad hands and hour markers in simple shapes – triangles, circles,

rectangles – are filled with a luminescent material emitting a long-lasting glow.

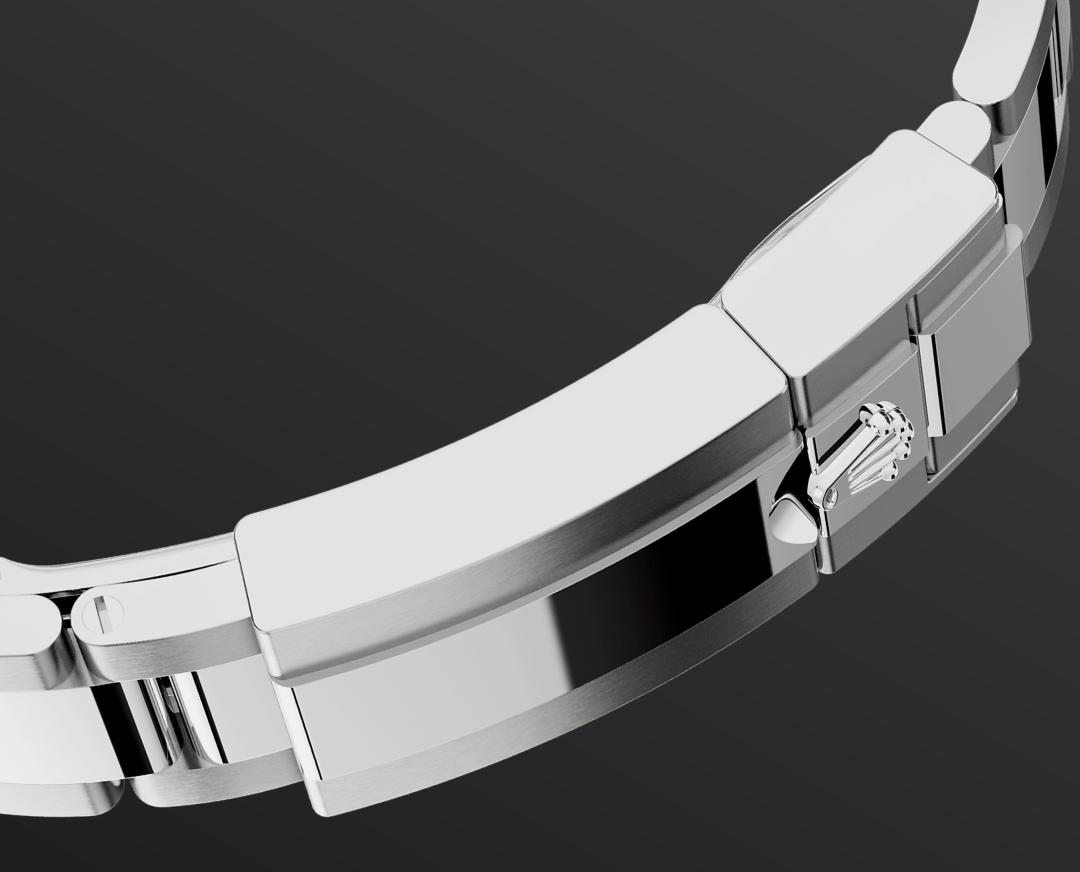

**OYSTERSTEEL** 

# Highly resistant to corrosion

Rolex uses Oystersteel for its steel watch cases. Specially developed by the brand, Oystersteel belongs to the 904L steel family, alloys most commonly used in high-technology and in the aerospace and chemical industries, where maximum resistance to corrosion is essential.

Oystersteel is extremely resistant, offers an exceptional finish once polished and maintains its beauty even in the harshest environments.

THE OYSTER BRACELET

# Alchemy of form and function

The Oyster bracelet is a perfect alchemy of form and function, aesthetics and technology, designed to be both robust and comfortable. It is equipped with an Oysterlock folding clasp, which prevents accidental opening and the Easylink comfort extension link, also exclusive to Rolex.

This ingenious system allows the wearer to increase the bracelet length by approximately 5

mm, providing additional comfort in any circumstance.

## more technical-details GMT-Master II
