DATEJUST 41
OYSTER, 41 MM, OYSTERSTEEL AND YELLOW GOLD

The Datejust, thanks to its aesthetics and functions, transcends changes in fashion. Aesthetically, the Datejust has spanned eras, while retaining the enduring codes that make it, notably in its traditional versions, one of the most recognized and recognizable of watches.
ROLESOR

Gold is coveted for its lustre and nobility. Steel reinforces strength and reliability. Together, they harmoniously combine the best of their properties. A true Rolex signature, Rolesor has featured on Rolex models since the early 1930s, and was trademarked as a name in 1933. It is one of the prominent pillars of the Oyster collection.

THE JUBILEE BRACELET

The design, development and production of Rolex bracelets and clasps, as well as the stringent tests they face, involve advanced high technology. And, as with all the components of the watch, aesthetic controls by the human eye guarantee impeccable beauty. The Jubilee, a supple and comfortable five-piece link metal bracelet, was designed and made especially for the launch of the Oyster Perpetual Datejust in 1945.

WHITE DIAL

The dial is the distinctive face of a Rolex watch, the feature most responsible for its identity and readability. Characterised by hour markers fashioned from 18 ct gold to prevent tarnishing, every Rolex dial is designed and manufactured in-house, largely by hand to ensure perfection.
WHAT A DIFFERENCE A DATE MAKES

Influenced by the pioneering Datejust, the date on the Datejust 41 is displayed in a window at 3 o’clock and changes instantaneously. The Cyclops lens on the crystal, invented by Rolex in 1953, magnifies the date for easy reading.

3235 MOVEMENT

This model is equipped with a new generation movement, calibre 3235, entirely developed and manufactured by Rolex for a superlative level of performance. Certified as a Swiss chronometer by COSC (Swiss Official Chronometer Testing Institute), it is tested a second time by Rolex after being cased to ensure that in everyday use it satisfies Rolex’s criteria for precision, which are twice as exacting as those for an officially certified chronometer. This control of the final precision of the assembled watch is carried out using a methodology and high-technology equipment specially developed by Rolex.
### MODEL CASE

**REFERENCE**  
126333

**MODEL CASE**  
Oyster, 41 mm, Oystersteel and yellow gold

**OYSTER ARCHITECTURE**  
Monobloc middle case, screw-down case back and winding crown

**DIAMETER**  
41 mm

**MATERIAL**  
Yellow Rolesor - combination of Oystersteel and 18 ct yellow gold

**BEZEL**  
Fluted

**WINDING CROWN**  
Screw-down, Twinlock double waterproofness system

**CRYSTAL**  
Scratch-resistant sapphire, Cyclops lens over the date

**WATER-RESISTANCE**  
Waterproof to 100 metres / 330 feet

### MOVEMENT

**MOVEMENT**  
Perpetual, mechanical, self-winding

**CALIBRE**  
3235, Manufacture Rolex

**PRECISION**  
-2/+2 sec/day, after casing

**FUNCTIONS**  
Centre hour, minute and seconds hands. Instantaneous date with rapid setting. Stop-seconds for precise time setting

**OSCILLATOR**  
Paramagnetic blue Parachrom hairspring. High-performance Paraflex shock absorbers

**WINDING**  
Bidirectional self-winding via Perpetual rotor

**POWER RESERVE**  
Approximately 70 hours

### BRACELET

**BRACELET**  
Jubilee, five-piece links

**BRACELET MATERIAL**  
Yellow Rolesor - combination of Oystersteel and 18 ct yellow gold

**CLASP**  
Folding Oysterclasp with Easylink 5 mm comfort extension link

**DIAL**  
White

**DETAILS**  
Highly legible Chromalight display with long-lasting blue luminescence

### CERTIFICATION

**CERTIFICATION**  
Superlative Chronometer (COSC + Rolex certification after casing)
