DATEJUST 31

Oyster, 31 mm, Oystersteel and white gold
THIS OYSTER PERPETUAL DATEJUST 31 IN WHITE ROLESOR FEATURES A WHITE DIAL AND AN OYSTER BRACELET.

The light reflections on the case sides and lugs highlight the elegant profile of the 31 mm Oyster case, which is fitted with a Fluted bezel. Aesthetically, the Datejust has spanned eras, while retaining the enduring codes that make it, notably in its traditional versions, one of the most recognized and recognizable of watches.
THE FLUTED BEZEL
A ROLEX SIGNATURE

The Rolex fluted bezel is a mark of distinction. Originally, the fluting of the Oyster bezel had a functional purpose: it served to screw the bezel onto the case helping to ensure the waterproofness of the watch.
WHITE DIAL
A DISTINCTIVE FACE

The dial is the distinctive face of a Rolex watch, the feature most responsible for its identity and readability. Characterised by hour markers fashioned from 18 ct gold to prevent tarnishing, every Rolex dial is designed and manufactured in-house, largely by hand to ensure perfection.
WHITE ROLESOR
A MEETING OF TWO METALS

Gold is coveted for its lustre and nobility. Steel reinforces strength and reliability. Together, they harmoniously combine the best of their properties. A true Rolex signature, Rolesor has featured on Rolex models since the early 1930s, and was trademarked as a name in 1933. It is one of the prominent pillars of the Oyster collection.
The Oyster bracelet is a perfect alchemy of form and function, aesthetics and technology, designed to be both robust and comfortable. It is equipped with an Oysterclasp and the Easylink comfort extension link, also exclusive to Rolex. This ingenious system allows the wearer to increase the bracelet length by approximately 5 mm, providing additional comfort in any circumstance.
THE CYCLOPS LENS
A MAGNIFYING LENS

The Cyclops lens is one of the most distinctive Rolex features, and one of the most recognizable. Named after the one-eyed giant of Greek mythology, the Cyclops lens magnifies the watch’s emblematic date display two and a half times for easy reading. Behind the Cyclops, as with every feature of a Rolex timepiece, lies a history of invention, research and development, and the endless search for perfection.
2236 MOVEMENT
SUPERLATIVE PERFORMANCE

The calibre 2236 is a new-generation self-winding mechanical movement entirely developed and manufactured by Rolex. Fitted with a Syloxi hairspring in silicon, patented by Rolex, it offers a superlative level of chronometric performance. Insensitive to magnetic fields, the Syloxi hairspring provides great stability in the face of temperature variations and remains up to 10 times more precise than a traditional hairspring in case of shocks. Its patented geometry ensures its regularity in any position.
Specifications
Reference 278274

**MODEL CASE**
Oyster, 31 mm, Oystersteel and white gold

**OYSTER ARCHITECTURE**
Monobloc middle case, screw-down case back and winding crown

**DIAMETER**
31 mm

**MATERIAL**
White Rolesor - combination of Oystersteel and 18 ct white gold

**BEZEL**
Fluted

**WINDING CROWN**
Screw-down, Twinlock double waterproofness system

**CRYSTAL**
Scratch-resistant sapphire, Cyclops lens over the date

**WATER RESISTANCE**
Waterproof to 100 metres / 330 feet

**MOVEMENT**
Perpetual, mechanical, self-winding

**CALIBRE**
2236, Manufacture Rolex

**PRECISION**
-2/+2 sec/day, after casing

**FUNCTIONS**
Centre hour, minute and seconds hands. Instantaneous date with rapid setting. Stop-seconds for precise time setting

**OSCILLATOR**
Syloxi hairspring in silicon with patented geometry. High-performance Paraflex shock absorbers

**WINDING**
Bidirectional self-winding via Perpetual rotor

**POWER RESERVE**
Approximately 55 hours
BRACELET
Oyster, flat three-piece links

BRACELET MATERIAL
Oystersteel

CLASP
Concealed folding Crownclasp

DIAL
White

CERTIFICATION
Superlative Chronometer (COSC + Rolex certification after casing)
