OYSTER PERPETUAL 39

Oyster, 39 mm, Oystersteel
THE OYSTER PERPETUAL 39 WITH A WHITE DIAL AND AN OYSTER BRACELET.

The aesthetics of the Oyster Perpetual models set them apart as symbols of universal and classic style. They embody timeless form and function, firmly rooted in the pioneering origins of Rolex.
WHITE DIAL
A DISTINCTIVE FACE

The dial is the distinctive face of a Rolex watch, the feature most responsible for its identity and readability.
Oystersteel
Highly resistant to corrosion

Rolex uses Oystersteel for its steel watch cases. Specially developed by the brand, Oystersteel belongs to the 904L steel family, alloys most commonly used in high-technology and in the aerospace and chemical industries, where maximum resistance to corrosion is essential. Oystersteel is extremely resistant, offers an exceptional finish once polished and maintains its beauty even in the harshest environments.
THE OYSTER BRACELET
ALCHEMY OF FORM AND FUNCTION

The Oyster bracelet is a perfect alchemy of form and function, aesthetics and technology. First introduced in the late 1930s, this particularly robust and comfortable metal bracelet with its broad, flat three-piece links remains the most universal bracelet in the Oyster collection. For the Oyster Perpetual models the Oyster bracelet is fitted with an Oysterclasp.
In 1931, Rolex invented and patented a self-winding mechanism with a free rotor, called the Perpetual rotor, based on a principal that would later be adopted by the whole watchmaking industry. The self-winding mechanism consists of a half-moon shaped oscillating weight, which pivots freely on its central axle, in one direction, then the other with the natural movements if the wrist. It transmits uninterrupted natural energy to the watch.
3132 MOVEMENT
SUPERLATIVE PERFORMANCE

This model is equipped with calibre 3132, a self-winding mechanical movement entirely developed and manufactured by Rolex. It features a Parachrom hairspring and Paraflex shock absorbers, offering greater resistance to shocks and to extreme conditions. Like all Rolex Perpetual movements, the 3132 is a certified Swiss chronometer, a designation reserved for high-precision watches that have successfully passed the Swiss Official Chronometer Testing Institute (COSC) tests. Its architecture, in common with all Oyster watch movements, makes it singularly reliable.
Specifications
Reference 114300

**MODEL CASE**
Oyster, 39 mm, Oystersteel

**OYSTER ARCHITECTURE**
Monobloc middle case, screw-down case back and winding crown

**DIAMETER**
39 mm

**MATERIAL**
Oystersteel

**BEZEL**
Domed

**WINDING CROWN**
Screw-down, Twinlock double waterproofness system

**CRYSTAL**
Scratch-resistant sapphire

**WATER RESISTANCE**
Waterproof to 100 metres / 330 feet

**MOVEMENT**
Perpetual, mechanical, self-winding

**CALIBRE**
3132, Manufacture Rolex

**PRECISION**
-2/+2 sec/day, after casing

**FUNCTIONS**
Centre hour, minute and seconds hands.
Stop-seconds for precise time setting

**OSCILLATOR**
Paramagnetic blue Parachrom hairspring

**WINDING**
Bidirectional self-winding via Perpetual rotor

**POWER RESERVE**
Approximately 48 hours
BRACELET
Oyster, flat three-piece links

BRACELET MATERIAL
Oystersteel

CLASP
Oysterclasp

DIAL
White

CERTIFICATION
Superlative Chronometer (COSC + Rolex certification after casing)
